

IMMEDIATE CALL TO ACTION!

Time is of the UTMOST importance to stop these vaccine mandates that are depriving us of our jobs, our freedom and perhaps our health. The California Government goes back into session in January. We have mere weeks to effectuate what could be the one movement that puts an end to this mandate – a mass exodus of union members from the unions. As you may know, the Teacher’s Union was a major proponent of the vaccine mandates. The Teacher’s Union and unions in general are also the biggest financial supporters of Governor Newsom. The funds the Union(s) use to make those contributions come from your Union Dues. Accordingly, a loss of those funds would equate to a loss of support for the Governor, hence a loss of support for these mandates! Their influence is powerful over the state, but so is ours, if we band together.

Freedom Foundation has graciously provided us the directives below. Upon receipt of the thousands of Opt Out letters we anticipate, Freedom Foundation will package all the letters and send them on the same day to the respective unions, with a note stating that your decision to leave is in response to the vaccine mandate. This will render the unions defenseless and with no choice but to force the Governor to rescind these illogical harmful mandates.

In order to begin your Opt Out of the Union please do the following NO LATER THAN November 24, 2021. It is vital that all letters be received by the unions on the same day to make the most powerful impact.
